

Stained Glass News

project pattern #98

Skier

Glass

Enlarge this pattern by 50%. This is the glass that you will need once it is enlarged.

A - l) $\frac{1}{2}$ square foot each

J) 1 1/2 square foot

To make the skier look like he is in flight, construct him separately. Use copper foil or wire to make the ski poles. Use silicone glue to adhere the skier and his poles to the completed background panel.
